10/07/2001 FDNY IAP – NOT FOR PUBLIC DISTRIBUTION
TO: Operations Chiefs, Sector Chiefs, Company Commanders of E. 10/L.10  
FROM: Frank Cruthers WCT Task Force Commander  
DATE: 10/5/01  
SUBJECT: GSP Tracking (Revised)  

1. GPS tracking is now fully implemented. When a fire officer, firefighter, police officer, civilian, fire apparatus or firefighter’s gear, equipment or personal items are recovered the Sector Chief will call over the HT on Channel 5 for GPS Tracking. E.10/L.10 will acknowledge the call and respond to the location to take readings. Two teams will always be in the field.

2. Fire Officer, Firefighters, Police officer and Civilian Recovery:
   2.1. The Sector Chief will notify the Operation Posts of every fire personnel recovery. The Operations Post will immediately notify the Command Post by phone.
   2.2. All recovery of victims and remains must be tagged with a special NYPD identification tag that includes a FDNY bar code.
   2.3. The GPS team will take a position reading, scan the bar code, then write on the bottom half of the tag the grid, and position readings. The top of the tag will include the grid number, and the name and agency of the person who found the body.
   2.3.1. If a construction worker brings over remains to a Sector, the Chief will arrange to get a GPS position. If that is not possible due to safety reasons the grid will be recorded in a special GPS Not Available Log by the GPS Tracking team. In any case the GPS team must tag all victims and remains.
   2.4. The bottom half of the tag is given to the Sector Chief to record in their log.
   2.5. The tag number will be recorded at the temporary morgue. If there is no tag, the FM or EMS will contact the Sector Chief immediately to make sure the GPS team tags the victim.
   2.6. Fire Marshals will ensure that the tag number is recorded at the Medical Examiner’s Office. When the Medical Examiner identifies the victim, the tag number and identity of the victim will be phoned to the Command Post (after notification to the family.)
       646-613-0078 or 1757. The Planning Chief will record this information into a database. This information will be used to map the location of where all fire personnel are found.

3. Firefighting gear, equipment and apparatus or other items:
   3.1. When discovering gear, equipment and apparatus or other items the GPS tracking team will follow a similar documenting procedure as above. Positioning reads, grid location and tagging is done by the GPS team.

4. Any questions or suggestion should be directed to BC Joseph Pfeifer (Planning Chief) at 646-613-0228 or 908-872-7220 (cell).
